Aztec Mineral Water Springs

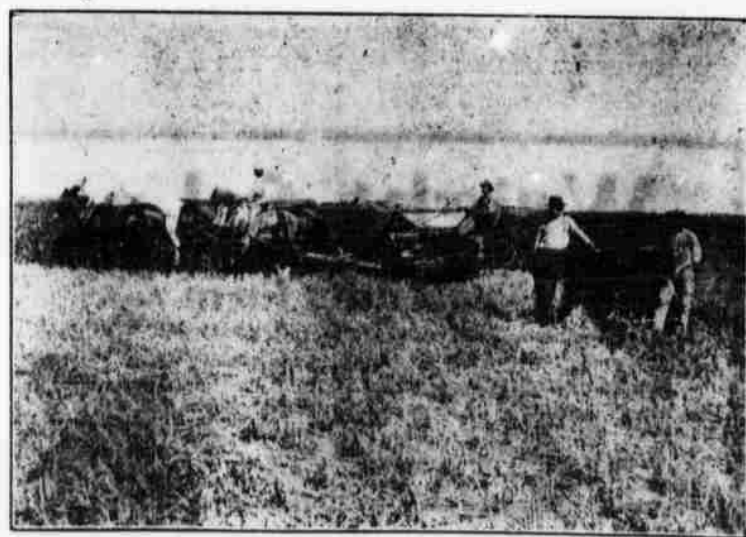

At Taylor, Colfax County, New Mexico, on the Main Line of the E. P. & S. W. Ry.

The only medicinal water in the Southwest and the only spring in New Mexico shipping water in car lots to various points over the United States.

The water is bottled just as it flows from the earth. It acts as an appetizer, aids digestion and dyspepsy as well as acts on the kidneys and liver. It is unequalled as a bar water for high balls, etc., and as a blend for liquors it has no equal.

Write to the company for any information, prices, etc.
